

**MWD**

METROPOLITAN WATER DISTRICT OF SOUTHERN CALIFORNIA

March 6, 1998

To: Member Agency Managers  
Member Agency Water Quality Managers

From: General Manager

Subject: Formation of a Perchlorate Workgroup

Several of our member agencies and their member agencies have expressed interest and concern regarding perchlorate in surface and groundwater in Southern California. Metropolitan would like to form a Perchlorate Workgroup with interested agencies. This workgroup would meet on an as-needed basis to cover various areas related to perchlorate, including perchlorate treatment, legislative and regulatory issues, public relations aspects, and activities in Nevada and elsewhere nationwide.

The first meeting of the Perchlorate Workgroup is scheduled for March 19 at the Irvine Ranch Water District from 12:30 to 2:30 p.m. The meeting will be held in the afternoon following the Member Agency *Water Quality* Managers' meeting. A tentative agenda is attached. If you are interested in attending or wish to add any items to the agenda, please call Jeanne-Marie Bruno at (909) 392-5017 or e-mail her at [jbruno@mwd.dst.ca.us](mailto:jbruno@mwd.dst.ca.us).
